MARKING GUIDELINES

MARKS: 300

MARKING PRINCIPLES:

- 1. Unless otherwise stated in the marking guideline, penalties for foreign items are applied only if the candidate is not losing marks elsewhere in the question for that item (no penalty for misplaced item). No double penalty applied.
- 2. Penalties for placement or poor presentation (e.g. details) are applied only if the candidate is earning marks on the figures for that item.
- 3. Full marks for correct answer. If answer incorrect, mark the workings provided.
- 4. If a pre-adjustment figure is shown as a final figure, allocate the part-mark for the working for that figure (not the method mark for the answer). Note: if figures are stipulated in memo for components of workings, these do not carry the method mark for final answer as well.
- 5. Unless otherwise indicated, the positive or negative effect of any figure must be considered to award the mark. If no + or sign or bracket is provided, assume that the figure is positive.
- 6. Where indicated, part-marks may be awarded to differentiate between differing qualities of answers from candidates.
- 7. This memorandum is not for public distribution, as certain items might imply incorrect treatment. The adjustments made are due to nuances in certain questions.
- 8. Where penalties are applied, the marks for that section of the question cannot be a final negative.
- 9. Operation means 'check operation'. 'One part correct' means operation and one part correct. Note: check operation must be +, -, x, ÷, or per memo.
- 10. 'One part correct' means 'operation and one part correct'. Where method marks are awarded for one part correct, the marker must inspect the reasonableness of the answer and at least one part must be correct before awarding the mark. If a figure has earned a method-mark, this will be regarded as 'one part correct'.
- 11. In calculations, do not award marks for workings if numerator and denominator are swapped this also applies to ratios.
- 12. In awarding method marks, ensure that candidates do not get full marks for any item that is incorrect at least in part. Indicate with a ⊠.
- 13. Be aware of candidates who provide valid alternatives beyond the marking guideline.
- 14. Codes: f = foreign item; p = placement/presentation.

These marking guidelines consist of 16 pages.

This is below the break-even point of 365 000 units (33 500 units less) see 2.3.1 The BEP has increased by 131 000 units (56%) while the number of units produced and sold increased by 37 500 units (13%). Explain why the owner would NOT be satisfied with the direct labour cost per unit. 2.3.3 Quote figures. Trend ✓ Figures ✓ Explanation ✓ Do not accept comment on total DLC Trend: The increase in the labour cost is R1,96 per unit (R5,60 to R7,56) / 35% increase / DLC per unit went up by 35% while units produced went by 13% **Explanation**: This exceeds the inflation rate / workers have been inefficient / production volume did not increase as much as the DLC per unit 3 Give ONE solution to this problem. Any ONE relevant control measure ✓✓ Part marks for unclear / incomplete answer Set production targets of production (during normal hours) / time and motion studies. Better supervision to ensure workers are on duty during normal working hours/ Set limits on overtime hours and ensure foreman controls this. Reconsider conditions of service e.g. minimum normal hours, overtime rate. Have plans for disruption due to power cuts, strikes etc. Engage in skills training to improve efficiency of workers. Use machines more extensively Negotiate affordable / reasonable increases (in line with inflation) in salaries/ wages. **TOTAL MARKS**

------	-----	----------	-----------	-------	------	-------	------	------	------	-------

ONE valid reason: 🗸 🗸 Part-marks for unclear / incomplete answer

- The customers do not like the new Ryder model /
- High returns indicate the quality is not good
- This is a new model / Customers not familiar with this model / poor marketing strategy.

Give advice (ONE point) to Fred in this regard.

ONE valid point of advice $\checkmark \checkmark$ Part-marks for unclear / incomplete answer

- Look for another model to replace the Ryder model
- Discontinue selling this model as mark-up % is low
- Advertise/promote the positive characteristics of the new model.

3.2.1 Explain why it was NOT a good idea to change to a cheaper supplier of T-shirts. State TWO points.

Any two valid points Explanations ✓ ✓ Figures ✓ ✓

Possible answers:

- The returns by customers are up from 0 to 40 (do not accept poor quality only)
- Although more units were sold the total gross profit decreased from R43 200 to R29 000 or by R14 200 (32,9%)
- Maintaining the profit mark-up at 50% on cost resulted in a lower selling price (R45 cheaper) made customers doubt the quality.

4	

3.2.2 Celia decided to change the supplier in 2018 and to change the mark-up %. How has this decision affected the business? State TWO points.

Any two valid points Explanations ✓ ✓ Figures ✓ ✓

Possible answers:

- Total units sold decreased from 165 to 150 / by 15 units / by 9%
- No returns (zero) in 2018 / returns by customers went down from 5 to 0
- The gross profit increased from R61 600 to R97 500 /by R35 900 / 58,3%)

4

3.2.3 Make TWO separate suggestions to Celia to improve the profit on pants in 2019.

Any two valid points Explanations ✓ ✓ Figures ✓ ✓

Possible answers:

- Advertise more to increase the sales as it went down from 325 to 280
- Increase the selling price (increase mark-up) to be > 910 and < 990
- Find a cheaper supplier as cost price went up from R620 to R650

Response for two marks:

There is <u>positive gearing</u> (ROTCE exceeds interest rate on loans) and it is <u>low risk</u> (not making extensive use of borrowed capital). 🗸 🗸

Response for one mark:

- This is a good decision because of positive gearing
- This is a good decision because it is still low risk

5.2.7 Comment on the price paid for the shares repurchased on 1 January 2018. Quote TWO financial indicators (with figures).

Must compare NAV and market price to repurchase price (not average share price)

The company paid a *higher price for the share R8,00 \boxtimes see 5.2.3 than the \checkmark NAV of \checkmark 778 cents and the \checkmark market price of \checkmark 780 cents.

*This might be higher/lower/equal if error is made in calculation in 5.2.3.

5.2.8 Thandi Nene owns 416 000 shares in the company. When the directors decided to issue a further 200 000 shares during October 2017, she decided not to buy more shares and rather spend her funds on an overseas holiday.

Explain why you feel Thandi has made the wrong decision. Quote relevant figures or calculations to support your opinion.

Calculations: If workings correct, but answer not a %, award marks but -1 in each case for no %

% shareholding before the share issue $416\,000/800\,000 = 52\%$

% shareholding after the share issue $416\ 000\ /\ 1\ 000\ 000 = 41,6\%\ \checkmark\checkmark$

% shareholding after repurchase 416 000 / 880 000 = 47,3%

Explanation:

Explanation (must mention or imply majority shareholding i.e. 50% + 1 share)

Thandi was the majority shareholder before the issue of the additional shares. As she did not increase her number of shares, she is no longer the majority shareholder. (Even after the repurchase of 120 000 shares she remains with less than 50% of the shares).

Response for two marks:

She has lost out on earning a maximum of R80 000 of dividends on the extra shares she could have bought / she has lost out on extra capital growth or extra returns of the shares.

Note: $200\ 000\ x\ 40\ cents = R80\ 000\ dividends$ extra could have been earned (She would have had to pay $200\ 000\ x\ R8,20 = R1,64m$)

6.4.1 Tony is not concerned about the overspending in advertising. Explain why this is so. Quote figures to support your answer.

Candidates must indicate the positive effect of advertising on sales

Provide appropriate figures ✓ ✓ one mark each

Expected response for 4 marks:

Advertising increased by R3 000 but Sales increased by R96 000.

OR

Advertising increased by 37,5% while Sales increased by 20% on bigger base.

6.4.2 State ONE consequence of not paying the amount due to creditors in April 2018.

- Credit to the business will be stopped by the creditors.
- The credit ratings of business will decrease / could be blacklisted / report to credit bureau
- Business will be charged interest for slow payment.
- Legal action can be taken by the creditors

6.4.3 State TWO points in favour of appointing Gentex Cleaning Services.

Any two valid responses ✓✓ ✓✓
Part-marks for incomplete / unclear response

Figures not required but may be provided as part of an explanation

- Outsourced cleaning could cost less than budgeted/actual for wages and cleaning materials
 Easier to budget (fixed contract amount)
- Expertise / professionalism / specialisation of the cleaning company
- No interruption or extra costs due to workers on sick leave etc.
- No storage space needed for cleaning materials
- Leads to reduction in administration costs
- VAT input can be claimed from SARS
- The cleaners can be rotated between different clients if necessary

Explain ONE point that Tony should consider before making this decision.

Any valid response ✓✓ Part-marks for incomplete / unclear response

- Whether it will make the current employees redundant / retrench or reassign the existing cleaners (consider the ethics of this)
- Reliability of the new cleaning company
- Honesty of the workers of the outsourced business
- Negative image of outsourcing to the company
- Whether outsourcing conflicts with their social responsibility programmes
- Instructions to cleaners have to be given through the cleaning firm's managers
- Terms of the contract regarding fee increases

Response for one mark:

VAT charged on outsourced cleaning services
